Contract Awarded for Hospital Expansion

DESERT HOSPITAL expansion was signalled Friday when the board awarded a contract for a new 22-bed wing. Board President Kenneth Kirk, left, discussed alternative actions with architect Roger Williams, Gillard Boyd, attorney, and vol

unteer fund raisers Milton Prell and William Perlberg. The remainder of the planned \$1.3 million expansion is expected to be contracted later this spring, the board meeting learned. (Desert Sun Photo)

CINCINNATI (UPI)-It's all over for the Los Angeles Lakers excent the shouting-and you can bet they'll be doing plenty of that when the Lakers arrive home for Sunday's game in the Sports Arena against Detroit.

Los Angeles clinched the National Basketball Association's Western Division title Friday night with a 124-117 overtime victory ov er Chicago at Louisville, Ky.

The Lakers completed their three-game eastern road trip today with a morning game against Cincinnati Royals in the NBA's weekly nationally televised affair.

However, Friday night's win wrapped up the championship second place Cincy-even if the Royals won today - too far back to mathematically catch the akers before the regular season mes to a close.

Jerry West's jump shot with 113 conds to play tied the game 110-110 after the Lakers had trailed at periods by as much as away in the overtime.

Entitled "Thunder on the Right," it was hosted by reporter Eric Sevareid and dealt various shades of opinion, including that of Sen. Barry Gold-water, Robert Welch and former Maj. Gen. Edwin A. Walker. The show was part of the "CBS Reports" series

By the very nature of the pro gram's subject, it seems safe to say the network can expect a good deal of reaction. As CBS itself said early in its report, political terms depend a good deal on where you stand your self.

This point came up in "Thunder on the Right" in a rare interview with Texas millionaire H. L Hunt. A CBS press release de-scribed Hunt as a "supporter of right-wing causes." Yet Hunt told a CBS interviewer he was not a conservative and never had been. He said Calvin Coolidge was the last president whose policies he approved, adding:

"He fulfilled the idea that he who governs least governs best.' Early in the program, CBS visited a practice alert of a group of armed "Minute Men," an or ganization which says it is preparing itself in case this country s invaded.

Delinquency isn't bred among boys who respect the property of others and know the value of

Civic and school authorities agree that "busy boys are better boys." Newspaperboys profitably invest their spare-time and exuberant energies in gaining business experience. They learn the value of money by working for it.

Of all part-time jobs, a newspaper route provides the best over-all training for future busi-

As one prominent educator wrote, "Many types of work which young people engage in do not provide the same experiences that the paper route offers. A paper route is a miniature business. The newspaperboy is actually on his own."

If you think your son or some other youngster might profit by Newspaperboy Experience, why not suggest that he come in and talk to us.

RIVIERA GARDENS

It is our privilege to offer for the first time a startling new type of home in an all-new residential development adjacent to our famous Racquet Club Road Estates. This is Riviera Gardens.

BUILT TO LAST.

Through a new development in construction utilizing steel as a principle component, we offer an almost indestructible dwelling, beautiful in design and affording the ultimate in luxurious living.

The romantic story behind these homes.

A search for the perfect school building led to the discovery of this ideal type of home construction. One of the nation's great corporations, the Rheem Manufacturing Company, in their Calcor division, has been working for years to develop a type of ideal school building which assures the safety and well being of the children it houses. Right here in Palm Springs we have an outstanding example of how well they accomplished their purpose. The Nellie Coffman, Jr. High School, designed by Wexler & Harrison, meets the highest standards of school construction. It is only one of numerous schools utilizing the Rheem method of construction. Others in Southern California being the Eisenhower High School and Mitchell School in San Bernardino, the Mariposa School in Lancaster and Madison School in Torrance. The outstanding features of these structures is their long life with low maintenance and greater strength for maximum safety. This protection is now extended to the whole family in a new home concept.

The home of the future here today.

Palm Springs' brilliant young architects, Wexler & Harrison, were given the assignment to design homes which would include the many advantages of this new type of construction and yet be true homes in every sense of the word, appealing to the eye—a home that will stay warm in winter and cool in summer. A home that would be flexible enough so that proper additions could be made to meet the needs of a growing family. A home that would not depreciate over the years. A home that not only could withstand the elements but would be impervious to the ravages of termites, dry rot, and even fire itself.

See this new wonder for yourself.

How well the finished product meets all these requirements can now be determined by a personal inspection. We invite you to see the 3 new model homes located in Riviera Gardens at Simms Road and Sunny View Drive.

What you will see.

From the outside you will see 3 beautiful homes which appear to the eye to be built of conventional materials. There is nothing metallic or "strange" in their appearance. As you enter each of the models you will be delighted with the tasteful decor — the imaginative way in which the architects have laid out the homes for maximum convenience and livability. If the day is warm you will notice how cool and clean the air is the minute you cross the threshold.

if the weather is cold you will note how warm and comfortable. This is because these homes are completely refrigerated airconditioned and forced air heated. You undoubtedly will be interested in the unique housing of all these units together with hot water heater, etc. for ease of maintenance.

Why not pay us a visit today?

These homes offer many unique features and innovations that must be seen personally to be understood. Because these homes are so advanced in concept it would take a whole new language to adequately describe them so we must fall back on that trite expression, "They must be seen to be appreciated".
